Taking courses for credit only (S/U): PE, Free Electives and courses offered only for S/U credit can be applied to graduation requirements. Students should check with their adviser before electing to take any course that normally is graded A-F as an S/U course.

1 **Mathematics Alternatives**
MA 141 and MA 241 is a suitable substitute for MA 131 and MA 231.

2 **Physiology Requirement** (take one of the following options)
BIO 301 and BIO 302 together are a suitable substitute for BIO 250. BIO 212 also is a suitable substitute for BIO 250. BIO 240 and BIO 245 are a suitable substitute for BIO 250.

3 **Free Electives**
(take 9 credit hours)
These electives cannot be remedial nor can they be taken at an elementary level after you have taken comparable coursework at a more advanced level. ST 311 is recommended as a Free Elective. Students interested in graduate school or professional school should check the courses required for admission to the programs to which they plan to apply.

4 **Physics Alternatives**
PY 205 and PY 208 can be substitutes for PY 211 and PY 212. PY 205 and PY 208 are calculus-based and require that you take the 40 series of Mathematics (MA 141 and MA 241). PY 201 and PY 202 would also be a suitable substitute for PY 211 and PY 212. PY 201 and PY 202 are calculus-based, require the 40 series of Mathematics, and are restricted to students in PAMS.
